

MEGARITE

THE ORIGINAL SERIES OR THE NEXT GENERATION ERA ONLY

Megarites are a gentle aquatic species. They may communicate with special musical poetry that their species alone can produce with their four lips. Their music is unique and beautiful, but few have heard their music as they dislike the effort required to travel off-planet. Their home planet is abundant in jade, and thus their homes and tools are made from that material.

EXAMPLE VALUE: *Music Is A Universal Language.*

- **ATTRIBUTES:** +1 Fitness, +1 Insight, +1 Presence
- **TRAIT:** Megarite. Megarites have four lips, and are aquatic in origin. They have a thick hide similar to a rhino's. The only food they eat is plankton that they strain from the planet's waters, much like how Earth whales use baleen. To survive out of water, they use Federation technology to intravenously inject nutrients into their bodies, which will sustain them for a week.
- **TALENTS:** The character receives access to the following talents. A Megarite must take at least one Megarite talent at character creation.

MEGARITE HIDE

REQUIREMENT: Megarite. Character creation only.

Your Megarite hide is quite resilient, like that of an Earth rhinoceros. You have Resistance 2 against physical attacks, but not energy attacks.

MEGARITE SONG

REQUIREMENT: Megarite. Character creation only.

The uniqueness of your species' music is so entrancing that it impresses those who have never heard it. When attempting or assisting a Persuasion Task for the first time with someone who has never heard Megarite song, you or the person you are assisting may re-roll the dice pool.
