

ADMIRAL ALYNNA NECHAYEV

Human

Female

Terran Empire

Biography

In another era, she might have been Empress. Alynna Nechayev has a natural hunger for power and an instinct for people's weaknesses. She forged her career fighting against the Klingons, Cardassians, and Tholians in the 2340s and 2350s but when these conflicts turned against the Terran Empire, Captain Nechayev pushed for a placement on Earth.

She has been a shark in the Imperial Senate, seeking out incompetent or vengeful officers who were squandering the limited resources that Earth still commanded. She also has made it a point to gain blackmail on captains she considers reckless or insubordinate, including Jean-Luc Picard of the *I.S.S. Stargazer* and Edward Jellico heading up the secretive *Galaxy* project. There's no doubt in Admiral Nechayev's mind that the Terran Empire will come back from its current setbacks and she's willing to use every weapon at her disposal to see that happen.
