

MENDON

Mendon is a Benzite who participated in an Officer Exchange Program in 2365, and was assigned as per his request to the *U.S.S. Enterprise-D*. Although an experienced officer in the Benzite government at the time, Mendon was given the rank of Ensign during the exchange. With Benzar settling into the Federation, Mendon now serves in Starfleet as a science officer.

Talents

Cautious (Science): Whenever you attempt a Task with Science, and you buy one or more d20s by spending Momentum, you may re-roll a single d20.

Intense Scrutiny: Whenever you succeed at an Engineering or Science Task as part of an Extended Task, you score 1 additional Work for every Effect rolled.

Studious: Whenever you spend one or more Momentum to Obtain Information, you may ask one additional question (in total, not per Momentum spent on Obtain Information).

Technical Expertise: Whenever you attempt a Task assisted by the ship's Computers or Sensors, you may re-roll one d20 (which may be the ship's die).
