Talents

Bold (Engineering): Whenever you attempt a Task with Engineering, and you buy one or more d20s by adding to Threat, you may re-roll a single d20.

Haliian Empathy: You have the Talent *Empath* (see page 105 of the Core Rulebook), but only at Close range. You also have a crystal prism called a *canar*, usable by Haliians to focus and amplify their telepathic abilities. When holding a *canar*, you may spend one Momentum to remove the range limitation. If another person is touching the *canar* with you, and they are a romantic interest, you may use the Talent *Telepath* instead. This Talent may be used only on the other person touching the *canar*.

Jury-Rig: When you attempt an Engineering Task to perform repairs, you may reduce the Difficulty by 2, to a minimum of 0. However, the repairs are only temporary and last a single scene, plus 1 additional scene per Momentum spent (Repeatable) before they fail again. Jury-rigged repairs can only be applied once, and the Difficulty to repair a device that had been Jury-rigged increases by 1.

Symbolic Dreams: As an aspect of your Haliian telepathy, your dreams are meaningful and symbolic, and you have learned how to interpret them to better understand yourself and your current situation. If you are able to go to sleep at the end of a Scene, or was rendered unconscious at the end of a Scene, in the next Scene where you wake up, you may add a bonus d20 to your dice pool for all Tasks that involve **Insight**.
