

MEHONA TRE

Betazoid

Female

Terran Empire

Biography

When the Terran Empire conquered Betazed it was an easy victory. The subsequent occupation, however, was difficult as the Betazoid people preyed on the minds of the Terrans. The Empire countered this by employing greedy Betazoids to fight against the mental sabotage and a culture of collaboration was born. Today that way of life has completely replaced traditional Betazoid culture. The result is a generation of cynical, cruel Betazoids like Mehona Tre.

As a young girl, Tre became a spy on several different Imperial ships. By the time she had earned a position as an official interrogator, Tre had developed close relationships with several Terran captains. She got a reputation for doing whatever it takes, becoming romantically involved with several commanding officers but also using both mental and physical torture to extract confessions from prisoners.

Whatever she might have been in another life, Mehona Tre is a skilled and trusted servant of the Terran Empire and a frightening one at that. She might not have the lethality of the Inquisitors or the Empire's deadly soldiers, but more than one suspected traitor of the Empire has been driven mad with just a day at the hands of Mehona Tre. Even those officers who trust her with important tasks know that some of those she has destroyed were previously Imperial officers whose ambitions went beyond their station. By all accounts these officers were legitimately traitors but if they were targeted for some reason there's rarely enough of their psyches left to know for sure.

Mehona Tre as a Revolutionary

Making Mehona Tre into a secret revolutionary working from the inside against the Terran Empire isn't a hard thing to imagine. All Betazoids must harbor some resentment at being second-class citizens of the Empire and there are plenty of inspirations in *Star Trek* series of seemingly loyal alien servants harboring secret hatred. The real challenge is making her a unique character that stands apart from those other examples.

Instead, Mehona Tre is a revolutionary working *with* Terrans. She doesn't manipulate people and break them down for selfishness or as the tool of some terrifying captain. Instead she works for the same class of Terran officer that Mirror Spock worked with to change the Empire. Subtly, slowly, she weeds out those cruel and inefficient Terrans to make room for those who will better the Empire and push it towards a greater future.
