A captain of eight years experience, ab Reis is still a young and enterprising officer, but is also highly self-disciplined. He carries himself with both reserve and dignity- not with arrogance at his lofty position, but with a keen awareness of the duties and responsibilities he bears. His code of honor can be best described as noblesse oblige- "noble ancestry constrains to honorable behavior; privilege entails to responsibility".

Captain ab Reis adheres to a strict philosophy of personal austerity and personal honor—he has chosen the hard, disciplined road—and maintains his footing through sheer immovable integrity and iron will. Aydin ab Reis does not make close friends easily, but is loyal to such friends unto death.

Aydin ab Reis is descended from nobility on his home colony (hence the ab Reis honorific) and grew up with rigid standards of honor and conduct. On the one hand, ab Reis is plain spoken and sometimes blunt, preferring the unvarnished truth to diplomatic equivocation. On the other, he seldom shares his mind with others and plays his cards very close to the vest. He can be very warm and approving when he chooses to be—and conversely, does not need words to make his disapproval and disappointment plain. He demands the very best from his officers—and they work hard not to disappoint his trust in them.

Of all his officers, Captain ab Reis is closest to Commander K'Muur—he knows her and trusts her—and knows he can depend upon her more than anyone else aboard.

Tall, thin, handsome, and dark, ab Reis moves with quiet, contained power and determination. He is a man to be reckoned with and wastes neither words nor actions. Captain ab Reis and the *Sakarya* have spent the last three years patrolling the Cardassian Demilitarized Zone, and are experienced in dealing with smugglers, pirates, and the like.

"...Sound once more a daring note of hope and will..."

The second of the Perimeter Defense Directive ship designs, the *Steamrunner*-class heavy frigate was designed with relatively specific mission profiles in mind: perimeter patrol and defense, long-range threat response, covert operations, and combat support. The class was also the first in Starfleet to mount mono-reflective plating.

The U.S.S. *Sakarya* is named in honor of the Turkish submarines which commemorated the Battle of Sakarya in the Greco-Turkish War (1919–1922) and Turkish War of Independence. She is also the first starship to bear the name.

Sakarya is currently carrying the following small craft:

- USS *Tarsus* NCC-76410, *Danube*-class runabout
- Lake Tuz* NCC-52143-1, Type 12 shuttlecraft
- Lake Van* NCC-52143-2, Type 8 shuttlecraft
